Lister Rapids Wastewater Switchover

Joining Riverdale and Whistler Hollow residents, the neighbourhood of Lister Rapids will be connecting to the new municipal waste water system Wednesday July 19th. Meter readings will be collected July 19th in order to receive initial base measurements. As these meters can be read from the street, meter readers will only need access to homes if the meter is faulty. No disruption of service should be noticed due to the switchover. Thank you for the cooperation and time of all involved, including residents, which have made this milestone possible.

The next community to connect will be River Springs / Rivercrest scheduled for this fall.
